COVER PHOTOS

Benjamin Dexter, World War I veteran who will be 86 years old in December, leads the Tri-Town Veterans' Day Parade in Mattapoisett. Mr. Dexter won best overall in the parade.

Lower Photo- Leading the Florence Eastman Post #280, American Legion are Captain Frank Suzan, Lt. Colonel George White, Commander M. C. Rosenfield and Major Charles Morgan.

Towns March in Honor

Veterans' Parades belong to the very young and the no longer young of this country. The veterans who march, though, are transported back in time to a youth indelibly fixed in the mind. War is a young man's occupation. The thinning ranks become again 18, 19 and 20 remembering friends who never made it past those precious few years. Veterans' Day evolved from Armistice Day, November 11, 1918, when an innocent United States with great relief ended the war "to end all wars". Then there were World War II, Korean War, Vietnam and many more young men to remember. It is fitting that ramrod straight Benjamin Dexter of Marion leads our tri-town parade and that he was named best

overall in the parade. Mr. Dexter, who will be 86 years old in December, marches for all World War I buddies and does it with pride and vigor undiminished by the years. Hopefully, the scouts and the brownies and the high school bands will never march in battle but they do march in honor of all the young men who never returned to live their lives in the peace that followed their violent adventure.

The tri-town parade was organized this year by the Florence Eastman Post 280 American Legion.

STREET LIGHTS DISCUSSED

Selectmen discussed the elimination of some street lights to save energy costs. They will conduct an inventory to see which could be removed. ComElectric charges $75. for removal of older sodium lights and up to $86. for the removal of new sodium lights. The town has 46 lights that can be removed at no charge.

COMPUTER PROGRAM

Selectmen discussed the delay in setting up the computer billing for the assessors with Old Colony's expert Robert Fay. Mr. Fay said that the taxpayers from A to L have been programmed but that there was a problem that occurred when the sewer information was inserted into the computer. He estimated that it would require a weekend and 2 days to insert the L to Z book and did not think that the sewer information problem was going to be difficult to solve. Mr. Fay said that he was optimistic that the tax bills could be completed on time.

SCALLOP STUDY SUPPORT SOUGHT

Mr. George Hampson from the Woods Hole Oceanographic Institution sent a letter to the Selectmen in regard to his research efforts on bay scallops. Mr. Hampson's findings are that the offshore population of scallops did not reflect a high degree of difference from the inshore scallops. Mr. Hampson asks for a letter of continued support for this study be submitted by the Selectmen. He will meet with the Board on November 17th to discuss the matter further.

Town Clerk's Notice

Notice has been received from Senator William MacLean's office that the deadline for filing Construction Supervisor's License applications has been extended to January 1, 1982. Should you wish an application, this office does have them for distribution.

WHARF AND SKIFF SPACE HOLDERS

Bills for the use of the Wharf and Skiff spaces will be mailed on January 1st instead of April 1st. All bills are due and payable within 30 days. It has become necessary to do this in order that the process of forfeiture or relinquishing of a space will be accomplished before the boating season is over. This year it was the end of August before we were able to finalize some of the spaces. It is hoped that by this early notice of the change you will be able to plan for the January bill. If anyone is interested in a locker at the wharf please call the Town Clerk's Office.

How to play the market without risking your life.

It used to be so easy. Risk some money in the market for growth. Keep the rest in the bank and buy a life insurance policy for security. Inflation has changed all that. A lot of people are risking that "security" today just to stay even with the economy.

There's a better way. John Hancock Variable Life. Like any whole life plan, it guarantees you the face amount of the plan you buy, but unlike most other plans, it also lets you invest in the market, with the opportunity to add to the value of your coverage.

Send us the coupon for more information. In uncertain economic times like these, an insurance plan that gives you an opportunity to help keep up with inflation could be the best plan in the market.

Prepared Childbirth

Childbirth is an important life event to be eagerly anticipated, to be embarked upon with full awareness of the birth process, to be experienced with confidence and active participation, and to be recalled with joy.

The next series of B.A.C.E. Prepared Childbirth classes begins on Sunday, December 6th, in Fairhaven for couples expecting babies in February.

It is the intent of B.A.C.E. Prepared Childbirth Classes to assist you in the realization of childbirth as an emotionally and physically satisfying experience.

Small, informal classes are taught by certified prepared childbirth instructors. Intensive preparation is couple oriented with specific training for the father or a partner as labor and delivery coach, so he/she may attend the birth of the baby.

The eight session series includes short

she studied at the Sorbonne. She then received her Masters Degree in Canada after which she went to New York University on an EPDA Grant to do doctoral work in a program designed to place women and minorities in leadership positions in education. Today, women occupy only 1% of the 160,000 superintendency positions in the country. Ms. Walsh is proudly and happily part of that minority. Over the course of twenty-six years in education, she has worked in a number of different systems, but she indicated that "These three towns are very fortunate that the seventeen school committee members are sincerely interested in children." She added that as a result of state laws, "We here in Massachusetts are attempting to educate all of the children of all of the people and give to them a free and appropriate education - something which has never been done before in the history of the world."

Over the course of the next few weeks, Team 7 East will have an opportunity to meet with many more officials from local government.

WENDY WHEELER OF ROCHESTER PUTS HER HORSE THROUGH ITS PACES AS JUNIOR HIGH STUDENTS LOOK ON.

TO RIDE WITH U.S. OLYMPIC EQUESTRIAN TEAM

Wendy Wheeler trained in horsemanship at the Potomac Horse Center in Baltimore, Maryland, has been riding since she was 15 and has had the honor of being chosen to ride with the U. S. Olympic Equestrian team.

Wendy visited Old Rochester Regional Junior High School recently and in the classroom students had the opportunity to ask questions as Wendy presented a filmstrip and lectured on the subject of "dressage", which is the schooling process through which both horse and rider undergo preparation for competition.

Students then proceeded to the athletic field where they were able to observe an actual demonstration of the "Spanish Walk", which is used in competition and which involves a series of gaits, walks, trots, and canters. Commands given by the rider to her horse must be silent and unobserved. Horses are judged by the degree to which these instructions are followed.

The New Bedford YMCA is now open on Sundays from 1:00 to 5:00 p.m. for YMCA members. Pool and gym facility use is available during this time. A good way to relax before and between the hustle and bustle of the holidays is to visit the YM.

TRU-TEST PAINTS
PAINTING HELP SPOKEN HERE.

BY Bonnie Blaire
TRU-TEST COLOR CONSULTANT

Dear Bonnie:

Last year the blue paint color I selected to repeat the hue of my dining room drapery seems satisfactory by day but turns grayish at night. How can I avoid repeating the error?

Signed, Puzzled

Dear Puzzled:

You are not alone. This is a problem throughout the home furnishing industry.

Many colors match in one light and not another. These differences are due most often to the spectral differences between dyes and pigments, that is; between fabrics and paint. When these differences occur, one must select paint color under home lighting conditions.

For your convenience, the Tru-Test Custom Color Selector is equipped with incandescent lighting, which is the filament light most often used in the home. The usual store lighting (fluorescent) is most color distorting of all artificial light and is most likely to lead to mismatches.

Excellent detail. This copy of an Early Victorian doorstop is very heavy-over 3 1/2 lbs. Very decorative as well as useful. Stands 7 1/2" high and 5 3/4" wide.

Maine to Connecticut, has covered the America's Cup Races in Newport, and Op-Sail events in Boston and Newport. The object of his work, says Mr. Klay, is to "capture that magnificent relationship one feels between sea and sail".

"We're delighted to present such an outstanding photographic artist at Cranberry World", says the museum's curator and manager, Anita Franks, who praised the North Marshfield-based artist for capturing on film the thrill and strength of sailing. More than twenty color prints are on display including some large-scale works.

Visitors to this Marine photographic show will also have the opportunity to tour the museum's permanent exhibit of historical cranberry artifacts, harvesting equipment, and displays as well as enjoy free drink refreshments and cranberry cooking demonstrations.

Cranberry World is sponsored by Ocean Spray Cranberries, Inc., the agricultural cooperative. Located on Water Street, it is within a ten-minute walk from Plymouth Rock and the Mayflower II. It is open daily from 9:30 a.m. to 5:00 p.m. through November 30, 1981.

Thanksgiving in Plymouth

Men and women dressed in early Pilgrim costume will welcome visitors from all over the world to places and activities in honor of those described by pilgrim Edward Winslow who wrote:

"Our harvest being gotten in, our governor sent four men on fowling, that so we might after a special manner rejoice together after we had gathered the fruit of our labors. They four in one day killed as much fowl as, with a little help be-

side, served the company almost a week. At which time, amongst other recreations, we exercised our arms, many of the Indians coming amongst us, and among the rest their greatest king Massasoit, with some ninety men, whom for three days we entertained and feated, and they went out and killed five deer, which they brought to the plantation and bestowed on our governor, and upon the captain and others. And although it be not always so plentiful as it was at this time with us, yet by the goodness of God, we are so far from want that we often wish you partakers of our plenty."

From that event, which we now call the "First Thanksgiving" we continue to symbolize the union of prosperity and brotherhood in Plymouth with similar traditions. A Thanksgiving-time visit has now become a holiday custom for many New England families.

The Pageantry of Thanksgiving Day in Plymouth begins at 10:15 a.m. with a Pilgrim's Progress. The solemn procession is a re-enactment of the Pilgrim's procession to church. The marchers represent the Pilgrim settlers -- men, women and children -- who survived the first desperate winter at Plymouth, and lived to found the colony which provided a "cornerstone of the nation". "As one candle may light a thousand," writes Bradford, "so the light here kindled has shown for many, nay in some sort to our whole nation." The Pilgrims assemble "by the drum" and proceed to the First Houses on the waterfront. As the church bell rings, the procession moves up Leyden Street, laid out by the Pilgrims 360 years ago, to the First Parish Church, the fifth meeting house of the first church built in 1648, at the top of Town Square where an interfaith union Thanksgiving Service will take place at 10:30 a.m.
